

**EXTREME.E**

**GREECE**

# A new era for environment protection

- ✓ Greece has set an ambitious program for environment protection and transition to zero footprint of CO2 emissions until 2050 in respect with E.U. “climate neutrality” program.
- ✓ As per 2023 and until 2028 all lignite-fire and petrol power plants will be closed or transformed.
- ✓ The objective is a clean energy production at 57% until 2028 and 100% until 2050.

# Impacts by lignite-fire and petrol power plants

- ✓ Power plants surroundings areas are highly polluted and landscape is dramatically worsen.
- ✓ Population is exposed to air and ground pollution.
- ✓ Local economy will suffer by the transition to clean energy production.

# Race and Port Locations

Two potential locations for Exeme-E event:

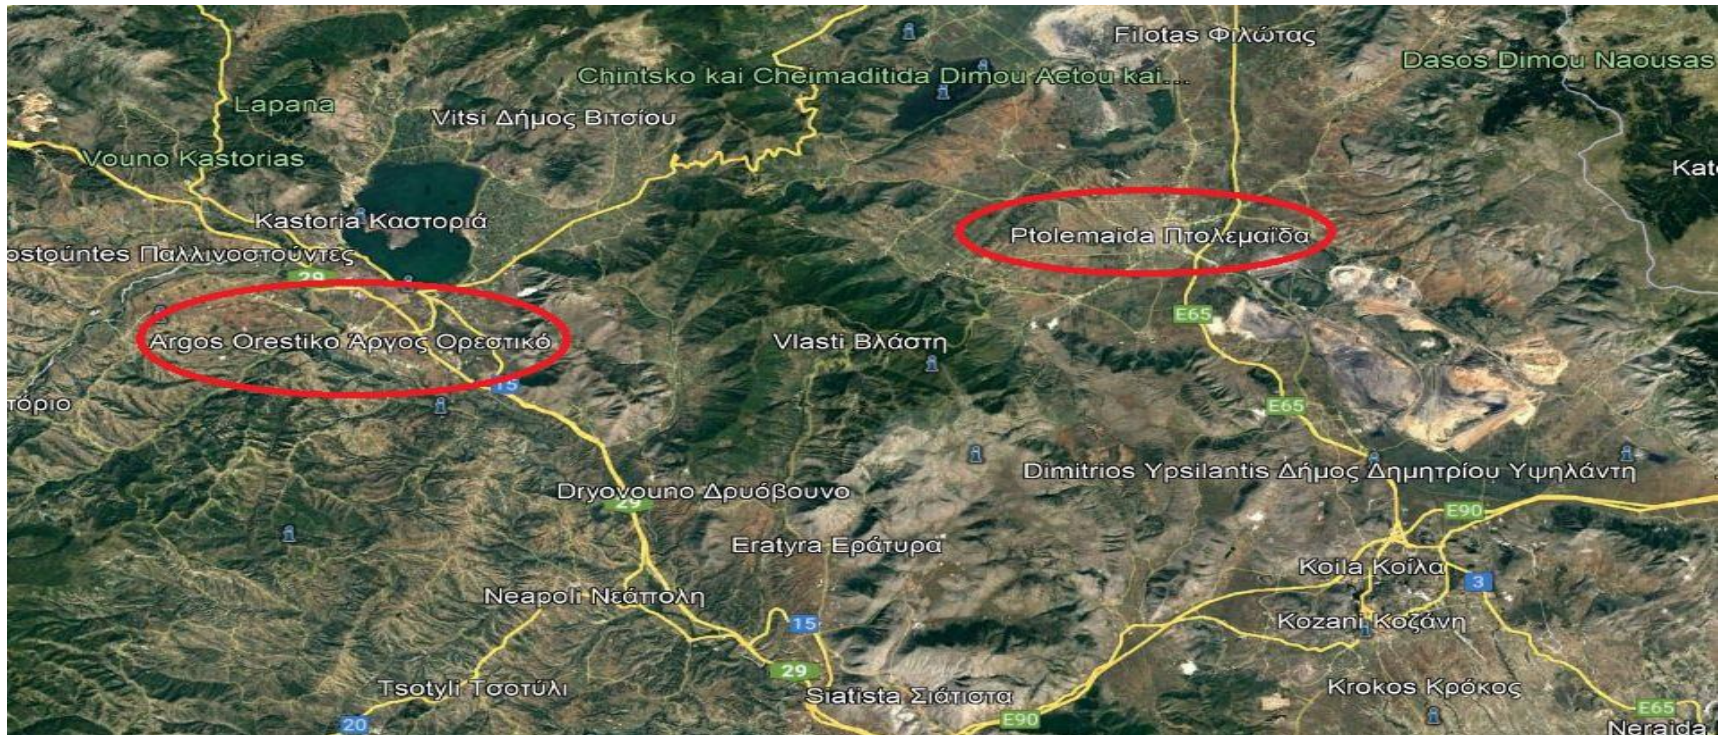

1. **“Ptolemaida”** with nearest ports **“Thessaloniki”** and **“Igoumenitsa”**.
2. **“Argos Orestiko”** with nearest ports **“Thessaloniki”** and **“Igoumenitsa”**.

# Locations' Concepts

**Argos Orestiko** Location may be interacted with the concept of “bringing renewable and clean energy close to people” so to make population familiar with new technologies.

**Ptolemaida** Location may be interacted with the concept of “energy transition” from the dirt old lignite used for electricity plants to new renewable and clean energy.

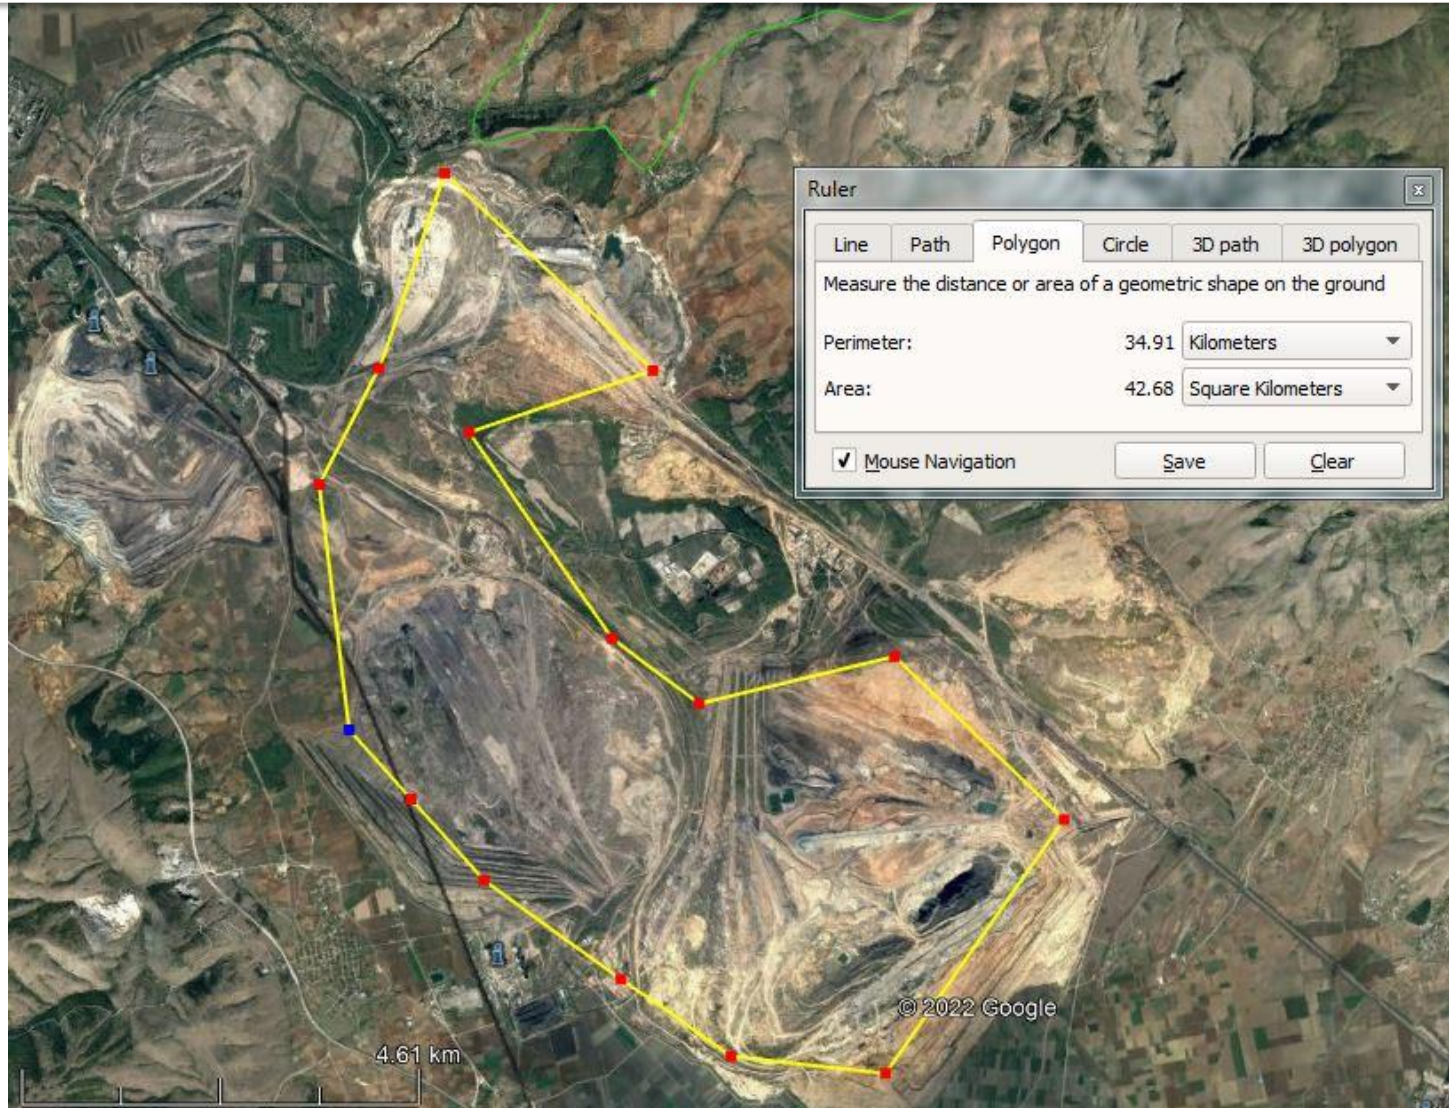

# Ptolemaida

1. Race Location in the private area of Electricity company named “DEI”.
2. “Ptolemaida” is a typical industrial and agricultural city. Absence of hotels that may accommodate VIP and Guests.
3. Approached by an excellent highway
4. Nearby cities with high standard accommodation facilities.

# Ptolemaida

# Ptolemaida

# Ptolemaida

# Argos Orestiko

Argos Orestiko is the second option for Extreme E.

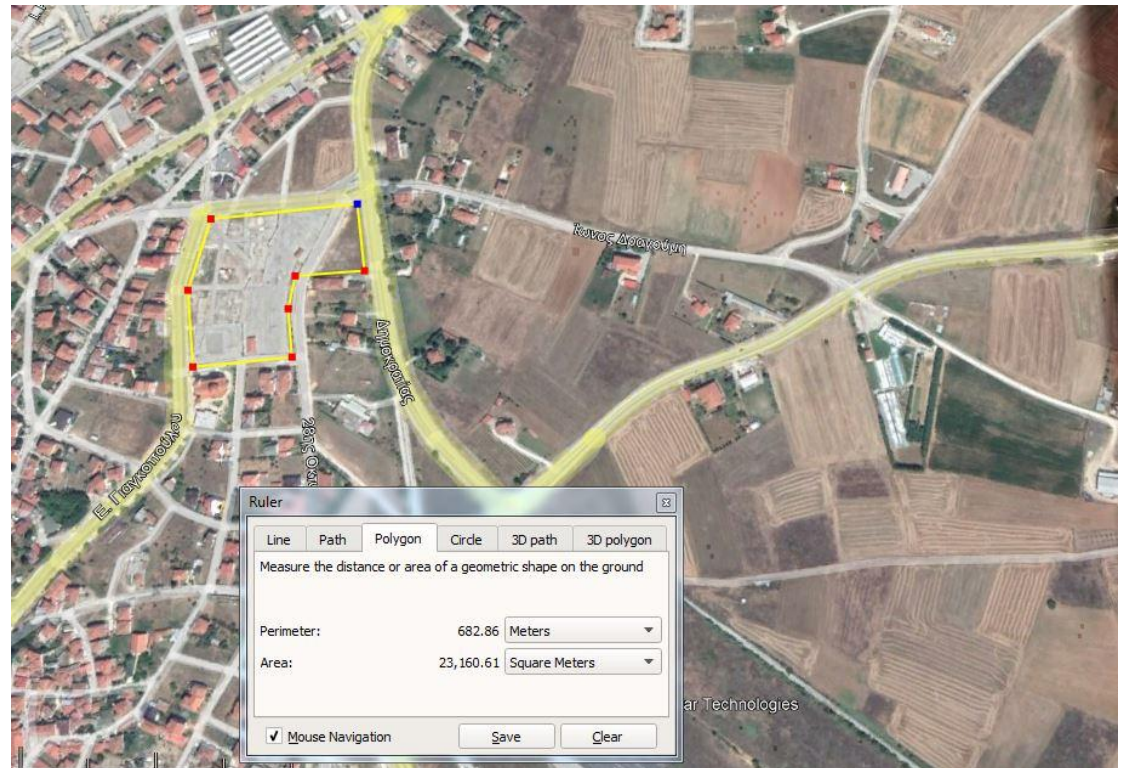

It provides excellent infrastructures

Bivouac to be settled in a spacious area inside the city

Proximity to high standard accommodation facilities

Approached by modern highway

Spectators may attend easily.

# Argos Orestiko

# Organizing Partner

## Attica Motorsport Club - Athens

- Any motorsport event conducted in Greece has to be approved by Greek ASN (called OMAE) and organized by a member club.
- State authorities have to issue a special permission under Organizer's name.
- Attica Motorsport Club of Athens (AMCA) is a member of Greek ASN and each year organizes the successful international FIA Cross Country Rally named "RALLY GREECE OFFROAD".
